Beloved Brethren, we have already crossed the middle of this year, time passes very quickly, and the encounter with our God is getting closer. My wife and I continue to work on building up the church in this area.

Working at the local church.

Gospel meetings. Last July, from the 24th to the 28th I preached here to the church in Flower Mound Texas, a series of five topics on the Apostasy of the church. Every night we had very good attendance, the brothers were very happy with the sermons. During the day, my wife and I were invited by various families to eat together and talk more about the topics discussed these nights. On Friday night, we set aside a few minutes at the end of the meeting to answer questions on the same topic.

These are the Bible classes with members of the church and visitors.

We continue to teach Bible classes during the week to:

With Sarai daughter of sister Rosy Agreda, we have every Tuesday at 10:00 am.

With José and Laura Vanesa from Colombia, we have every Wednesday at 10:00 am.

With Reinaldo and Nelviren from Venezuela, every Friday at 7:00.

We are also visiting members who need encouragement during the week.

Working on preparing classes during the week.

I continue to help prepare classes for the children of the local church.

I am still working on preparing adult classes for the local church.

I continue to teach and prepare sermons and Bible classes for the local church.

I continue to share sermons and classes with brothers who ask me outside the local church. Generally these are young brothers who preach in Mexico and part of the United States.

Working with new contacts.

In this month of July, I met two young people who arrived from Colombia, their names are: Jorge and Angie, they are friends of José and Laura Vanesa from the same country, we have already started talking with them, and we hope very soon to be able to establish a Bible class per week. They are very young and are just beginning to experience their first year of marriage.

We are very grateful to God because in recent years, he has prospered with spiritual growth and growth in numbers in our congregation.

Also very grateful to you for the salary that you send us month after month for our needs. May God fill you with much fruit in your work as well.

In the service of the Lord: Alberto Barrera.
